
A13.2: Waste Sites and Capacities within the Study Area

- 1.1 Table 1 lists the available waste management infrastructure within the study area including the type, locations and capacities of each facility. The locations of the operational waste management infrastructure within the study area are also presented on Figure 13.1.
- 1.2 These data support the assessment presented in Chapter 13 (Material Assets and Waste) and have been ascertained through a review of the baseline information sources identified therein.
